Carving Project is going amazingly. Students have all had at least two opportunities to carve and meet with Simon. The themes of the sessions have been cooperation in which Simon discussed the need to work as a team to complete big projects and that every role is important. The second session Simon introduced the concept of reverence. He spoke of his reverence for the cedar tree and shared the many uses of the cedar tree in his life from art, to transportation to medicine and much more. The carving is carved in western red cedar.
